Re: Inter-local Agreement with the Town of Prosper

Background

The City of Frisco entered into an inter-local agreement with the Town of Prosper (Prosper) during FY04. This agreement provided GIS services to the Prosper for a period ending September 30, 2004. During FY05 through FY08 there was a continuation of these services. Attached is the proposed inter-local agreement for FY09 with the Town of Prosper.

Below you will find the benefits that both Frisco and Prosper will achieve by continuing this effort.

Benefits for Frisco

1. The City of Frisco dispatches emergency services to the Town of Prosper, thus maintaining up to date GIS information that can be used by the dispatchers will prove to be of great use.
2. Receives revenue exceeding expenses.
3. Increase staff at no direct cost.
4. Open the door for other external support opportunities, which could benefit other regional partners.
5. Facilitate regional planning.

Benefits to Prosper

1. Leverage off our highly skilled GIS staff.

2. Utilize our data conversion contract.
3. Obtain a GIS for substantial savings.
4. Provide the powerful resources of GIS, during the Town's early growth.

Recommendation

I recommend that the City Council approve the inter-local agreement.
